About CCAE Theatricals, Inc.:

The mission of CCAE Theatricals is to celebrate human connection through theatre and education by sharing stories that illuminate the individual experience and cultivate a collective voice.

We preserve, strengthen and advance the art of storytelling through theatre as a vital social and cultural platform by creating theatrical experiences of the highest professional standards. As both a laboratory for theatrical exploration, a producer of plays that expand the boundaries of theatrical form, and an educational innovator - CCAE Theatricals supports projects that are aesthetically, thematically and methodologically diverse for diverse communities.

Our education work includes creative youth development and workforce development. We provide arts education opportunities to the community at large and through our learning partners. The Dorris Staples Theatrical Conservatory was established as a workforce development program for aspiring theater professionals in response to the urgent need for representation within historically elite theater spaces. Thanks to the generosity of the David T. and Dorris E. Staples Foundation and the Conrad Prebys Foundation, the program creates pathways and expands access to careers in theater arts as a means to ensuring the industry belongs to everyone.
